

DREAMS

What are my resources?

Family and supportive friends who are able to process next step process with me.

Who do I need to involve?

Gather a group of concerned friends and family to process options for future housing, insurance, job needs, religious needs

What are my next steps?

Simplify by putting house on market.

Think through future housing down-sizing.

Process job and health insurance options.

To live one day at a time...To live a life of gratitude...Spend quality time with my friends and family...Live a Christ-centered life...Spend more time out in nature in a warmer climate...Simplify.

What are your hopes and dreams?

Already have a great support community here in Kansas City.

Difficult to enjoy nature outdoors in the winter here. John and I would prefer a warmer climate during those months.

John and I have similar goals, but need help working through how to everything come together to make dreams come true. Cancer/health insurance are two areas where we feel definite uncertainty.

Where do my dreams make sense?

What have I learned?
